Sequence Information

1. This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures. As per a review performed by the STIC facility of the USPTO, the Sequence Listing submitted by Applicants 1-07-2002 does not match the specification as filed. For example, the original sequence listing discloses 54 sequences, however the newly submitted sequence listing recites 58 sequences. Additionally, it is also noted that SEQ ID NO: 1 is identical SEQ ID NO: 55.
2. A complete response to this Office Action requires that Applicants comply with the sequence rules. Any response that does not address all of these issues will be held as non-responsive. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.
